MEMORANDUM FOR: [REDACTED] EE/PM/ [REDACTED]
SUBJECT: Evasion/Escapes Course #18 (15-26 June 1953)

25X1A9a
25X1A

1. Your critique of subject course was read with much interest and I want to take this opportunity to thank you for your interest and offer of assistance in future courses.

2. In line with your suggestions, the next course will devote more time to the responsibilities of the military services in the field of E&E and action being taken to meet these responsibilities. It is hoped that in the near future an E&E exercise can be presented with selected key military personnel participating. It is felt that such a combined exercise would be the best method of coordinating the overall training effort of the military services and the Agency in this field.
